

BEFORE THE INSPECTION

To ensure the best inspection results for all parties involved, Chandler Inspections kindly asks that the owners of the property being inspected please work to complete the following before the scheduled inspection.

- Clear passage to the entrance of any attic spaces
- Clear passage to any and all circuit breakers on the property, including in any garages, pole barns, etc.
- Empty any washing machines that will be transferred with the property
- Empty any dryers that will be transferred with the property
- Empty any dishwashers that will be transferred with the property
- Empty any ovens, and clear any stovetops that will be transferred with the property
- Unblock any and all windows and electrical outlets where possible
- Remove any pets from the premises during the inspection
- Ensure all utilities are on so the inspector can perform his duties.
